Grain and Provisions. Grain and Provisions.

CHICAGO, Oct. 28—Dispersal of European was clouds resulted in liberal liquidation of wheat today. In consequence, prices showed a material decline. December being off while at the close. May was down 1/2. From beginning to end a weak undertone pervaded the wheat market, the course of prices being influenced by the reassuring news regarding the final out come of the Russian Baltic fieet incident. A sharp decline in prices of wheat at Liverpool emphasized the bearish feeling. The weakness in foreign grain markets was reflected here at the opening, the December option showing a loss of \$50.50 to \$6.00 to \$1.13. There being heavy liquidation of minerous small holders. Shortly after the opening May sold at \$1.12%. The price then steadily declined until \$1.124 was reached.

The fact that Northwestern stocks will sequently the temperature fell, restoring retail trade in wearing apparel, fuel and similar products to greater activity than was experienced a year-ago.

"Bullding operations are active strengthening the markets for lumber and materials. Manufacturing plants are making steady gains, particularly in leading industries, and it is significant that rejuctance to do business has shifted from suyers to sellers, eliminating largely the concessions in prices that prevented stability. Labor is unusually well employed, judging by the official compilation of the unions. unions.

"Railway freight blockades cause some complaint, which is remarkable in view of the restricted grain movements, and arnings in the three weeks of October were 2.2 per cent larger than in 1903.

"Foreign commerce at this port for the ast week exceeded the same period a rear ago by \$1.589,739 in value of exports and \$1.04,851 in Imports.

"Demand for domestic blees in Western markets continues sufficient to absorb all offerings, fully maintaining quanties and in some instances causing adapters. After a long period of duliness.

then steadily declined until \$1.12½ was reached.

The fact that Northwestern stocks will show an increase of about 2,000,000 bushels for the week lent color to a report that Minneapolis millers were solling May wheat on all railies. A report by a St. Louis trade journal also gave considerable encouragement to the bears, the claim being made that weather conditions in the Southwest generally are favorable to the growing crop. Some recovery was made inte in the day on covering by shorts. There was also some buying for investment account on a report from Argentine stating that rains were needed in some colonies in order to raise half a crop. The market closed easy with December at \$1.125 and flour were 16.000 barrels.

ing from persistent realizing. December opened %c lower, at 29%c, sold off to 28%c and closed at 29%c. Local receipts were 103 cars.

Provisions were easier as a result of local selling, due to heavy receipts of hogs and to the weakness of grains. At the close January pork was off a shade at \$12.42%. Lard was down 12%c, at \$7.05. Ribs were 5c lower, at \$6.45. RANGE OF THE LEADING FUTURES.

RETAIL TRADE BETTER.

Cooler Weather Has Had Stimulating Effect on Business.

NEW YORK, Oct. 28.-Bradstreet's to morrow will say. Cooler weather has helped retail trade at the West and South This is reflected in some re-order business from jobbers and wholesalers, while

This is reflected in some re-order business from jobbers and wholesalers, while steady and better than last year at the date, is not entirely up to expectations. This is possibly due, in a mensure, to the close proximity of election, which is credited in a few reports with holding back some business. Leading industries give quite satisfactory reports, fron, in its cruder forms, leading, with active demand at advancing prices. Collections, as a whole, are classed as good, being relatively best at the South.

"Railroad earnings for the first half of October will run over 6 per cent ahead of those in 1903. There still appear unmistakable signs that caution and conservatism have not lost their value as yet, and that these qualities still weigh the tendency toward optimism noted in recently preceding weeks. Features in this week's dispatches are the good reports from leading. Western centers as to retail trade. Settled cold weather is noted at the East to stimulate fall, distribution at retail.

"Raw wool is less active at the East, but firnily held for what supplies are available. Lumber is fairly active at all Western points; there is more building of all kinds contemplated, and white plite disern points: there is more building of all kinds contemplated, and white pine dis-plays more strength. It is also improving

MEN! GET IT NOW.

Send today for a book which will inspire any man to be strong and vigorous—a book you will like to read. It tells now to cure weak men, and gives illustrations to cure weak men, and gives illustrations of the effect of my belt upon weak, nerveless men. I send the book, sealed, free, if you inclose this ag.
